Response to Arguments

Applicant's arguments filed August 1, 2005 have been fully considered but they are not persuasive. Applicant argues that the references do not disclose a removable plastic sheet for protecting a disc which has UV absorbers therein (claims as amended). In this regard, the 102 rejections over the '968, '069, '875, '673, '026 and '971 patents are withdrawn. However, the 102 rejection over the '437 patent stands. The '437 patent discloses the removable protective layer having a UV-absorber therein (the wavelength range is not specified but UV includes 200-380nm). Further, the 103 rejection stands. Applicant argues that the references do not disclose removable protective sheets having UV-absorbers therein. As stated in the previous Office Action, the "968, "069, '875, '673, and '971 patents disclose removable protective sheets. It is recognized that they do not disclose the inclusion of UV-absorbers in the protective sheets. However, the '581 reference discloses that it is known to coat substrates with a resin/absorber mix to protect the disc. The absorbers are listed in cols 7-8. The reference also discloses that it is known to vary the specific absorber or amount of absorber to accommodate varying wavelengths of light to be absorbed. See col. 8. Therefore, it would have been obvious to one of ordinary skill in the art to include any of the various absorbers listed in varying amounts in the protective layers of the '968, '069, '875, '673, or '971 patents. One would be motivated in providing the improved light protective properties of the '581 protective layer in the removable protective layers.

Claim Rejections - 35 USC § 102

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 31-34 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by US 4,983,437.

See previous Office Action and response above.

Claim Rèjections - 35 USC § 103

Claims 31-40 are rejected under 35 U.S.C. 103(a) as being unpatentable over US 4556968, 5787069, 5912875, 5935673, or 2003/0218971 in view of 6319581.

See previous Office Action and response above.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Rena Dye, can be reached at (571) 272-3186. The fax number for the organization where the application
